Dear Friends of Circle Arts,

As we prepare for our 50th Anniversary, it only seems fitting for us to do a couple of important things. First, let me say thank you for supporting live theatre in New Braunfels. Without the help of patrons like you, we could never have made the improvements at Circle Arts that give all theatre-goers a quality experience. Second, it is our commitment to our patrons to continue to strive for performance perfection, thus making your experience at Circle Arts enjoyable and one in which you are eager to return.

We are asking for your support, as we look to complete the next item in our list of major renovations. A new sound system is needed to enhance our facility. We need to raise \$18,000 to successfully complete this project. This will assure our patrons have the best experience in live theatre, right here at Circle Arts! I have enjoyed being part of Circle Arts Theatre for the past 10 years, and certainly look forward to many more performances, as a member of the audience and on the stage. Please consider a gift to help us achieve our \$18,000 goal. Together our partnership will provide excellent live theatre in New Braunfels, and give young actors and actresses a complete professional setting in which to learn and grow.

Your help is very much appreciated!

Rusty Brockman,  
Board Member of Circle Arts Theatre
